

## Dehumidifier LEF 30

Art.-No.: 23.690.35

Bar code: 4006825561982

Sales unit: 1 pc

With the dehumidifier LEF 30 you could avoid humidity, for example at living-, store- and cellar rooms, and so you would not have wet walls, smelly odours, mould formation and condensation water. In the machine is a ventilator installed which channels the humid air through an evaporator which cools down the air. Spare humidity gets collected as condensate in a condensate tank and the dehumidified air would be blown out with muted raised temperature.

### Features:

- Handle (1)
- To the rear tiltable air discharge opening (2)
- Display „condenser full“ (3)
- Operating mode display (4)
- Display „defrost“ (defrosting the carburetor) (5)
- 2 grades speed switch for ventilator (6)
- Rollers (7)
- Condensate box with gauge-glass and float for overflow safety (8)
- Air inlet with washable dust filter (9)
- On/ off switch with humidity-adjustment (40 % - 80 % RH, continuous duty) (10)
- **By a continuous operation it's possible to use a hose connection for constant conduction of the condensate**

### Technical data:

- Operation clamping: 220 - 240 V ~ 50 Hz
- Power input max.: 560 W
- Temperature area: +8° C - +32° C
- Dehumidification capacity: at 30°C and 80 % humidity 30 l / day  
at 27°C and 60 % humidity 15 l / day
- Volume of condensate box approx.: 7.0 l
- Refrigerant: R134a / 230 g
- Tool dimensions approx.: 645 x 342 x 320 mm
- Net weight: 17.3 kg
- Gross weight: 18.7 kg
- Packing dimensions: 400 x 375 x 690 mm
