

Automatic Water Works E-HA 6036

Art.-No.: **41.766.40**

Bar code: **4006825539219**

Sales unit: **1 pc**

The water works automatically convey water with stable pressure from wells and cisterns. Amongst other numerous applications, it can be used to supply water for toilets, washing machines or simply to water the garden. The electronic flow sensor switch automatically turns on the water works, when water is required and shuts it off, when no more water is needed, i. e. when the water tap closed. The thermal-cut-off protector switch saves the pump from overheating. In case of the water supply runs dry, the pump is protected by the Dry Run Protection Switch.
