

Electric welding transformer PB-CEN 151

Art.-No.: **15.440.53**

Bar code: **4006825544466**

Sales unit: **1 pc**

Electric welding transformers are especially used for joining by welding of flat-iron, angle iron, tubes or similar material. One great advantage of electric welding is, that the materials might not be warmed up and welding can be started directly at the requested position. Work pieces with various strength can also be welded with each other without any problems. By its compact construction the electric welding transformer is ideally suitable for mobile use!

Features:

- Continuously adjustable welding current (1)
- Thermal cut-out with control lamp (2)
- Complete with welding accessories (3)
- Portable

Technical data:

- I_{kmax} : 120 A
- Electrodes: \varnothing 1.6 – 2.5 mm
- No-load voltage: 48 V
- Mains: 230 V ~ 50 Hz
- Fuse: 16 A
- Weight: 13.6 kg
- Packing dimensions: 400 x 220 x 290 mm
