

The use of special components at the air compressor makes the renouncement of oil lubrication possible. Thus the compressor is particularly low maintenance, because no oil level must be controlled and no oil must be refilled.

Features

- Transport handle (1)
- Practical storage shelf in the housing cover (2)
- Wheels for easy transport (3)
- Drain cock (4)
- Base foot with vacuum cup function (5)
- Pressure controller (6)
- Pressure gauge and quick coupling (7) for regulated working pressure
- Well amenable on/off switch
- Intake filter
- Non-return valve
- Safety valve
- Oil-free and thus low-maintenance
- 10 years warranty against rusting through of the tank
