

The perfect solution for warmth in your home!

**Einhell**®

**NEW GENERATION**

This ceramic heater is indispensable during the transition period and on extremely cold days. Ceramic heaters are very compact and can generally be used individually all around home because of its heating element construction.

In order to achieve the desired temperature at all room areas quickly (its adjustable by a thermostat control), an integrated fan and an additional oscillation function provided, ensure an optimal distribution of warm air in the room.

This equipment can also be used as fan in summer.
