BG-PP 1950 N Pond Pump

Art.-No. 41.723.91

This powerful pond pump assists you in obtaining a good water quality and cares for the right amount of oxygen in the water. It is an eye-catching device in your garden pond or artificial brooklets. The pump is designed for permanent use under water. The pump is powered by an oil-less motor with the stator completely sealed-in and water-cooled permanent magnet rotor. The housing is made of impact resistant stainless steel.
