BG-PP 1750 N Pond Pump

Art.-No. 41.724.55

This powerful pond pump assists you in obtaining a good water quality and cares for the right amount of oxygen in the water. It is an eye-catching device in your garden pond or artificial brooklets. The pump is designed for permanent use under water. The pump is powered by an oil-less motor with the stator completely sealed-in and water-cooled permanent magnet rotor. The housing is made of impact resistant stainless steel.

Features

- Flow control for fountain spout (2)
- Connector for water spout (3)
- Flow control for water spout (4)
- Handle (5)
- Suction filter with BIOCELL-filter inlet (6)
- 10 m mains cable with earth plug (not illustrated)

Standard accessory

- 1 Jet fountain spout (1)
- 1 Bell fountain spout (7)
