## FWW 2000 Wave Heater

Art.-Nr. 23.384.35

The mobile wave heater FWW 2000 does not warm up air dimensions, but warms up firm bodies in the area where they strike onto with the radiated warming waves. The heat waves make a comfortable heat feeling without overheating the room and without production of air turbulences. The waves convert approx. 90% of its energy in direct and long-waved heat rays and therefore it is very economical.

The wave heater is very silent and reaches the maximum heating radiation very fast. It does not disperse dust and is therefore very suitable for people with breathing difficulties, allergic persons and homes with children.

### Advantages compared to traditional electric heaters:

- An additional moistening of the room air because of the heating is not necessary
- The room temperature can be lowered by almost 2 degrees and retain the same feeling of comfortable warmth
- Universal applicable in living rooms
- Attaining very quickly the highest heat reflection
- Releases heat in three sides

### Features

- Plastic-metal grid housing
- 2 pcs feet
- LED-Display
- Adjustable thermostat from +5°C to +36°C
- Two heat-settings (1,000 W/ 2,000 W) for optimizing the energy consumption
- Tilting protection (switches off during tilting)
- Power switch
- Control timer with 1 – 18h turn off function

### Technical Data

- Mains: 220-240 V ~ 50 Hz
- Heating power max.: 2.000 Watt
- Protection class: IP X0
- Product weight: 4.0 kg

### Logistic Data

- Net weight: 4.0 kg
- Gross weight: 5.2 kg
- Packing dimensions: 855 x 250 x 335 mm
- Bar code: 4006825 584097
- Sales Unit: 1 pc
