## BT-VE 1100 Suction Device

Art.-No. 43.041.30

This small suction device produces a high depression and the exhaust air will be cleaned by a pleated filter. For stationary tools the 100 mm suction hose is ideally suitable. By using the adapters also smaller hoses can be connected.

### Features

- Ø 100 mm tube system (1)
- 4 reduction adapters (2)
- 50 l metal vessel (3)
- Carrying handle (4)
- Fine filter (pleated filter)

### Standard accessories

- 2 m suction hose Ø 100 mm
- Pleated filter
- Paper addition filters (5 pcs)

### Technical data

- |                      |                       |
|----------------------|-----------------------|
| ■ Mains voltage:     | 230 - 240 V ~ 50 Hz   |
| ■ Input power:       | 1,100 W               |
| ■ Vessel capacity:   | 50 l                  |
| ■ Air capacity:      | 183 m <sup>3</sup> /h |
| ■ Max. vacuum:       | 25,000 Pa             |
| ■ Hose length:       | 2 m                   |
| ■ Net weight:        | 9.3 kg                |
| ■ Gross weight:      | 11.0 kg               |
| ■ Packing dimension: | 410 x 410 x 700 mm    |
| ■ Bar code:          | 4006825 546491        |
| ■ Sales unit:        | 1 pc                  |
