

Einhell®

NEW GENERATION

Unlike conventional air conditioners no-complex and cost-intensive installations are necessary with the NLK 65 H. The incoming air will be cooled by a iced water or cold water filling which runs over a filter pad, and will be blown out forwards. Thus the room temperature will be reduced. By the ionisation of the air, a climate can be formed like the climate at the sea or in the mountains. The concentration of micro organisms in the air is reduced, the oxygenation in the blood and the strength against disease germs and allergies are promoted. Additionally the unit is equipped with a PTC heating element (ceramic heating element). All functions are directly adjustable at the unit or by the provided IR-remote control.

NLK 65 H Air Cooler

Logistic Information:

Type:	NLK 65 H	Sales unit:	1 pc
Art.-No.:	23.601.36	20`:`	324 pcs
Ident-No.:	01018	40`:`	683 pcs
Bar code:	4006825 558005	40``HC:	799 pcs
Packaging:	370 x 305 x 765 mm	Weight:	6.47 kg (net)
		Weight:	7.0 kg (gross)

Einhell®

NEW GENERATION

Features:

- On / Off switch
- Selector switch cooling / heating
- „Speed“ – Fan speed: 3-settings
- „Time“ – Power-off time delay 0.5 – 7.5 h
- „Mode“ – Sleep or nature mode (natural wind will be copied)
- „OSC“ – automatically vertical adjustment of the air discharge opening lamellas
- „Cool“ – humidification of the filter pad
- „Heater“ – heating function with PTC heating element
- Ionisation
- Recessed grip
- Manual adjustment of the horizontally air discharge opening lamellas
- LED – Announcement of all adjusted functions
- 2 cooling batteries
- Large water tank with water level scale
- 4 castors
- IR-remote control

Technical Data:

- Mains: 220 - 240 V ~ 50 Hz
- Rated input cooling: 65 W
- Rated input heating: 1,000 / 2,000 W
- Water container capacity: 5 litres
- Humidification power max.: 0.3 l/h
- Negative Ionic: $\geq 3 \times 10^6 \text{ n/cm}^3$
- Protection class: II
- Unit dimensions approx.: 260 x 320 x 700 mm
