

Metal House M 225218

Art.-No.: 37.111.10

Bar code: 4006825371413

Sales unit: 1 pc

The EINHELL Metal House is made of a special coated steel sheet, which gets its definite colour by a powder varnishing procedure during a 3-phase varnishing process.

Due to the worldwide patented SNAPTITE connection assembly system, no riveted joint is needed and the number of bolted connections is reduced by 2/3, compared with conventional bolting systems. Instead of screwing the single wall elements onto the baseboard, the profiled wall elements are simply put and snapped into the SNAPTITE baseboard.

Additionally the metal house has to be fixed on the ground at several places. (Fixing material not included).

The metal house was tested with a snow load of 50 kg/m² and stands wind speeds up to 147 km per hour.

Features:

- Profiled, 0.35 mm strong COLORBOND® - powder varnished steel sheet
- Colour of the side walls „Mist Green“
- Worldwide patented SNAPTITE – connection assembly system
- Wide single wing-door with lockable bar (padlock not included)
- Overall corner profiles

Technical data:

- Dimension without overhang (a x b): 218 x 225 cm
- Overhang: 37 mm
- Side height: 178 cm
- Ridding height (c): 193 cm
- Door height (clearance): 172,5 cm
- Door breadth (inner width): 75 cm
- Floor space (without overhang): 4.91 m²

10 Years warranty against rust perforation
