Bunnings Item No: 0562484

Ozito Connect is a heavy-duty modular storage solution excellent for storing and carrying tools and accessories. The interconnectable cases allow you to customize and simplify your storage, while the retractable trolley handle and wheelset provide versatility & movement.

This high-quality polypropylene three-piece set provides a heat-resistant & impact resistant solution to your storage needs. The double foam inlay provides maximum protection to your tools whilst the storage tote insets enable the neat and tidy storage of small accessories. With a 90kg weight limit while carrying by the handle or a 120kg total load whilst transporting on the wheels, this modular storage system provides a robust and resilient storage solution.

FEATURES & BENEFITS

Interlocking & Stackable – The interconnectable case allows you to customise and simplify your storage, categorising each case to your needs & easy usage.

Tough & Impact Resistant – The connect case is made from high-quality polypropylene which is heat-resistant & impact resistant so you can safely secure your tools without any chances of damage.

Easy to Transport – The connect case has a retractable trolley handle and wheelset which makes it easy to transport anywhere you want.

3 Case Set With Storage Dividers – Multiple cases allow for large storage spaces with a variety of tools & equipment that can be separated and stored with the dividers.
