The Einhell ash vacuum cleaner TC-AV 2032 DW makes short work of any cooled-down ash in fireplaces, pellet stoves and grills. With its carrying handle and four swivel castors mounted on the 20 litre collection container, it can be easily moved. Ash and fine dust have no chance thanks to the pleated filter. The additional pre-filter ensures better filtration and prevents rapid clogging of the pleated filter. With its quick-release locks, the ash container can be emptied easily. The power cable is stowed away with a cable hook-and-loop fastener. Re-attach the hose to the air outlet to use it as a blower. Delivery includes a metal-reinforced suction hose and an aluminium suction pipe.
