The Einhell TC-SM 254 drag, crosscut and miter saw is ideally equipped for all jobs of workmanship involving wood. The high-grade carbide saw blade also cuts through wide workpieces thanks to its smooth and stable draw function. For good angular cuts the turntable has a precise angle adjustment facility and for the most common angles there are locking positions. The scales are easy-to-read. The saw head can be tilted to the left for perfect mitre cuts. The integrated cutting line laser is an enormous help when working, as is the spindle lock for changing the saw blade. Supports for longer workpieces are provided on the left and right. There is a clamping device for securing the workpiece. The dust funnel is for removing the sawdust.
