RT-AC 300/50/10

Air Compressor

The 2 cylinders and the belt drive care for a high intake capacity. The 10 bar of the 50 litre vessel allows a variety application spectrum and by using of high-grade components a very long runtime is secured. By quick couplings the vessel pressure or a lower regulated working pressure can be taken out. Due to the wheels the compressor is mobil.

Features

- High running time
- 2 cylinder air compressor
- Belt drive
- Pressure switch
- Pressure gauge and quick-release coupling for unregulated tank pressure
- Pressure gauge and quick-release coupling for regulated working pressure
- Drain cock
- Non-return valve
- Safety valve
- 10 years warranty against rusting through of the tank
