

Tap water is a scarce commodity, which is also becoming increasingly expensive. Those with access to an alternative water supply not only save cash in water charges, but are also largely independent of public supplies. The water works unit BWW 830 automatically conveys water with stable pressure from wells and cisterns. Amongst other numerous applications, it can be used to supply water for toilets, washing machines or simply to water the garden. The powerful pump is running silently, therefore it is very suitable for service around the house. The unit is powered by a sturdy asynchronous motor with thermal protection. The water works is supplied complete with pressure switch and pressure gauge.

Features

- Handle (1)
- Pressure connection (brass female thread) (2)
- Water filler screw (3)
- Suction connection (brass female thread) (4)
- Pump housing made of plastic material (5)
- Pressure switch (6)
- Water drain plug (7)
- Pressure gauge (8)
- Tank 15 l (9)
- ON / OFF switch

Technical Data

- | | |
|------------------------------------|------------------------------------|
| ■ Mains: | 230 V ~ 50 Hz |
| ■ Power: | 800 W |
| ■ Delivery capacity max.: | 3,000 l/h |
| ■ Delivery height max.: | 36 m |
| ■ Pressure max.: | 3.6 bar |
| ■ Activation pressure max.: | 1.5 bar |
| ■ Cut-off pressure max.: | 3 bar |
| ■ Tank volume: | 15 l |
| ■ Suction and pressure connection: | approx. 33.3 mm (R1) female thread |
| ■ Suction height max.: | 8 m |
| ■ Product weight: | 10.8 kg |

Logistic Data

- | | |
|-----------------------|--------------------|
| ■ Net weight: | 10.8 kg |
| ■ Gross weight: | 12.3 kg |
| ■ Packing dimensions: | 420 x 570 x 290 mm |
| ■ Bar code: | 4006825 596199 |
| ■ Sales unit: | 1 pc |
