BT-BC 7/1 PE Battery charger

Art.-No. 10.412.15

Robust 12 V electronic battery charger. It is equipped with LEDs to show the prevailing charging condition of the battery. The strong, fully insulated pole clips warrants an optimal connection to the pole tips of the battery. With the carrying handle it can be comfortably transported. The electronic charging control limits the charging voltage. Overloading the connected battery is therefore not possible and the charging procedure does not have to be supervised. The battery charger is ideal for maintenance-free batteries and also for topping up seldom used batteries.

Features

- All-insulated construction
- Electronic charging
- Plastic housing (1)
- Integrated carrying handle
- Function display (LEDs) (2)
- Overload- and false polarity- and short circuit protection
- Mains cable with Europe plug
- On / Off switch (3)
- Charging leads with sturdy, fully insulated pole clamps (4)

Technical data

- Mains voltage: 230 V ~ 50 Hz
- Charging voltage: 12 V
- Charging rate: 5.1 A arithm. / 7 A eff.
- For lead batteries from: min. 10 Ah up to max. 110 Ah
- Product weight: 2.3 kg

Logistic data

- Net weight: 2.4 kg
- Gross weight: 2.5 kg
- Packing dimensions: 198 x 120 x 197 mm
- Bar code: 4006825 582925
- Sales unit: 6 pcs
