EH-Art. No: 30.002.22

Ident No: 11017

Barcode: 9319510022367

Bunnings Item No: 0034546

The installation kit offers a hassle free solution for flood relief situations, as it has everything required to start transferring dirty water from flooded areas.

Powerful 1000W Motor enables the pump to create a maximum lift and head height of 9 metres which allows the pump to carry the water wherever you need it. A 7 metre immersion depth means the pump can be submerged for efficient water removal.

The thermal overload protects internal components with automatic shut off when operating temperatures are exceedingly high.
