BG-AW 1140 N Automatic water works

Art.-No. 41.769.00

The automatic water works in combination with the electronic flow indicator switch allows using external water supplies i. e. for storing in rain-water tanks, for lawn watering or the use of grey water in the house. The pump housing is made of corrosion resisting stainless steel, therefore no rusty water. The inserted thermal-cut-out protect the pump of overheating. The electronic flow indicator switch turns on automatically, when water is needed and shuts itself off, when the water supply is stopped, i. e. by closing of the water tap. The pump is protected by the unlubricated operation protection (protection against dry running) against damages.
