RT-XS 28

Multi-Sander

This all-rounder combines three different types of sander in one handy unit: an orbital sander for large and level surfaces, an eccentric sander for domed surfaces, and a delta sander for perimeter work. The high power of the performance motor is very easy to regulate, thanks to modern electronics. An integrated dust extraction system combined with perforated sanding paper prevents the grinder from making a mess as well as increases durability and improves results. A quick-fit fastening system allows the sanding paper to be changed quickly and easily. The additional handle can be adjusted as desired.

Features

- Several sanding discs (eccentric, delta, rectangle)
- Easy changeable sanding disc
- Electronic speed control
- Adjustable additional handle
- Dust collection box with filter
- Dust extraction adapter
- Sanding papers
- Velcro fastening
- Cable clip
- Softgrip
