The Einhell Power Generator TC-PG 3100 provides reliable power wherever no socket is available – whether on construction sites or while camping. The air-cooled 4-stroke petrol engine delivers 2600 W continuous output and up to 3100 W peak output and is started via a recoil starter. Integrated AVR technology ensures a stable output voltage. Two 230 V sockets are available for power supply, while a voltmeter displays the current voltage. The 15 litre petrol tank with level indicator allows operating times of up to 11 hours at 2/3 load. Overload protection and a low-oil cut-out ensure safe operation. Robust wheels and a folding handle enable easy transport.
