

SUBMERSIBLE FLOOD RELIEF KIT

PSDWK-780

EH-Art. No: 30.002.84
Ident No: 11017
Barcode: 9319510022909
Bunnings Item No: 0054909

The installation kit offers a hassle free solution for flood relief situations, as it has everything required to start transferring dirty water from flooded areas.

The pump can be fully submerged up to a depth of 7 metres for efficient water removal. This feature is ideal for draining flooded areas and water removal of rainwater tanks and pools, and the 8 metre head allows the pump to carry the water to wherever you need.

The thermal overload protects internal components with automatic shut off when operating temperatures are exceedingly high.

FEATURES & BENEFITS

Powerful 780W Motor – Enables the pump to create maximum lift and head height

8 Metre Head – Allows the pump to carry water to wherever you need

7 Metre Immersion Depth – The pump can be submerged for efficient water removal

Flood Relief Kit – The installation kit offers a hassle free solution for flood relief situations, as it has everything required to start transferring dirty water from flooded areas.

SPECIFICATIONS

Motor – 780W
Max. Flow Rate – 15,700 litres/hour
Max. Head – 8m
Max. Immersion Depth – 7m
Max. Particle Size – Ø35mm
Hose – 25mm x 10m
Rope – 20m
Power Cord – 10m
Rating – IPX8
Water Temp – 1°C - 35°C

CONTENTS

1 x Submersible Water Pump
1 x L-shape Connector
1 x Universal Adaptor
1 x Lay Flat Hose
1 x Nylon Lowering Rope
1 x Stainless Hose Clamp
1 x Instruction Manual
