The Einhell CE-BC 30 M Battery Charger is an intelligent, micro-processor controlled system with multi-stage charging cycle. It is suitable for all standard 12V and 24V vehicle batteries. The trickle charge function does not harm the battery being charged and prolongs battery life, particularly on seasonal vehicles. Over-charge, short circuit and reverse polarity protection prevent damage to the charger. The unit also comes with fully insulated battery clamps. The LED battery voltage and charge status display show at a glance the current state of the battery.
