Router Accessory

**Router Guide Rail Adapter**

**Item No.: 4350420**

Ident No.: 21013

Bar Code: 4006825673579

The original Einhell guide rail adapter for milling machines is a practical accessory for precise work with routers and edge milling machines. The adapter is easily attached to the respective milling cutter and then makes it possible to use it in combination with a guide rail. Thanks to an additional fine adjustment, the milling cutter used can be guided over the rail without play for particularly precise and straight milling work. The adapter is compatible with all Einhell routers and edge routers, as well as with routers from other brands. The adapter can also be used with all Einhell guide rails, as well as rails from other brands.

## Features & Benefits

- Original Einhell guide rail adapter for routers
- Adapter for guiding milling cutters along a guide rail
- For particularly precise, straight milling
- Fine adjustment for clearance-free guidance of the milling cutter in the rail
- Compatible with all Einhell routers and edge routers
- Compatible with all Einhell guide rails
- Suitable also for milling and guide rails of other brands
