DHG 360 Diesel-Hot Air Generator

Art.-No. 23.364.06

The Diesel-Hot Air Generator is simple to install. Simply only refuel with fuel oil or Diesel, build a 230V power connection, switch on and it can be heated. The unit is suitable for heating well ventilated areas, drying of new buildings, point heating of workplace and the like. Permanent air leak of a size from 0,8 m² are compellingly necessary for it.

Features

- ON / OFF switch (1)
- Temperatur and fault indication (2)
- Integrated, adjustable thermostat (3)
- Rolling up possibility for extension cable (4)
- Large frame (5)
- Fuel indicator (6)
- Tank cap (7)
- Integrated fuel tank (8)
- Large, air-filled wheels (9)
- Flame monitoring by photo cell
- Overheat control
- Manometer for pump pressure
- Electric ignition
- Housing with frame joint for easy service reparation
- Storage case for small parts

Technical Data

- | | |
|--|-----------------------|
| ■ Ventilator: | 230 V~ 50 Hz |
| ■ Air volume flow max.: | 900 m ³ /h |
| ■ Nominal heat capacity max.: | 36 kW |
| ■ Temperature of blowing out air max.: | 404°C |
| ■ Tank volume: | 38 l |
| ■ Consumption per hour: | 3.6 l |
| ■ Running time with one fill max.: | 10 h |
| ■ Room size max.: | 300 m ² |
| ■ Product weight: | 24.0 kg |

Logistic Data

- | | |
|-----------------------|--------------------|
| ■ Net weight: | 24.0 kg |
| ■ Gross weight: | 27.0 kg |
| ■ Packing dimensions: | 940 x 430 x 500 mm |
| ■ Bar code: | 4006825 577457 |
| ■ Sales Unit: | 1 pc |
