BT-PG 2000 Power Generator

Art.-No. 41.523.73

This "power station" supplies energy and provides security.

Power will be available whenever it is needed. Power failures or insufficient current supply are no longer a problem; whether during camping, at building sites, in homes or cottages, on boats or in the garden. This equipment can be used nearly everywhere, and, with its continuous power supply of 2,000 watts provides sufficient power for many applications. The large 15-litre tank ensures continuous operation for 14 hours at 2/3 load. The power generator is powered by a high-quality 4-stroke engine and is equipped with an overload switch.
