

# NHA 110 V Set

## Automatic water works

Art.-No. 41.767.10

This garden pump is particularly suitable for the garden irrigation. External water resources, e. g. rain water reservoirs can be used for irrigation or industrial water supply. The electronic flow switch automatically turns on the water works, when water is required and shuts it off, when no more water is needed, i. e. when the water tap closed. The thermal-cut-off protector switch saves the pump from overheating. In case of the water supply runs dry, the pump is protected by the dry run protection. Furthermore the garden pump is equipped with a pre-filter, which prevents that dirt arrives into the pump inside.

### Features

- Pre filter (1)
- Large water filler screw (2)
- Handle (3)
- Electronic flow switch (4)
- Water drain screw (5)
- Return valve (6)
- Pump housing made of plastic (7)

### Standard accessories

- 4 m suction hose with suction valve (8)
- 20 m pressure hose  $\varnothing$  1/2" (9)

### Technical data

- Mains: 230 V ~ 50 Hz
- Power: 1,100 W
- Delivery capacity max.: 3,600 l/h
- Delivery height max.: 46 m
- Pressure max.: 4.6 bar
- Suction height max.: 7 m
- Pressure/suction connection: 1" internal thread
- Water temperatur max.: 35°C
- Net weight: 13.8 kg
- Gross weight: 15.3 kg
- Packing dimensions: 700 x 390 x 295 mm
- EAN-Code: 4006825563672
- Sales unit: 1 pc
