This 82mm Planer from Ozito is a must have for smoothing rough surfaces, straightening edges and resizing pieces of timber.

The 'V' shaped groove on the base plate allows you to easily create chamfers on workpieces, while the rebate guide attachment allows you to make precise rebate cuts in your projects. Use the parallel guide to make straight guided cuts along surfaces.

The safety lock-off button prevents accidental starts for a safer experience, whilst the automatic base park shoe protects your workpieces from damage when you set down the tool.
