The Einhell Compressor TE-AC 430/50/10 can be used for a variety of tasks involving compressed air. The 3,000-watt motor and intake capacity of 430 L/min supply the necessary power. The 50 L tank holds a reserve of air for extended operation. The pressure can be adjusted to suit a range of applications up to 10 bar by means of the pressure regulator. The two-stage compressor unit and the belt drive ensure a high output. The compressor is durable thanks to high-quality components and the oil-lubricated pump; a sight glass is provided for checking the oil level. Pressure gauges and quick-coupling fittings are provided for both the regulated and unregulated pressure sides.
