Air Compressor

The 1 cylinder compressor with direct coupled engine cares for a high intake capacity. The 10 bar of the 24 litre vessel allows a variety application spectrum and by using of high-grade components a long runtime is secured. By quick couplings the vessel pressure or a lower regulated working pressure can be taken out. Due to the wheels the compressor is mobil.

Features

- Max. 10 bar vessel pressure
- Drain cock
- Big wheels for easy transport
- Pressure gauge and quick-release coupling for regulated working pressure
- Pressure reducer
- Pressure gauge and quick-release coupling for unregulated tank pressure
- Non-return valve
- Pump lubricated with oil
- 10 years warranty against rusting through of the tank
