

Spruceness in the garden and around the house!

The electric vac blower with its „vacuum and shredder function and blowing functions“ provides cleanliness in the garden and around the house in a short period of time. The functions can be changed easily by selector switch.

The no load speed n_0 is electronically adjustable. Therefore, the blowing speed and suction capacity can be adjusted continuously.

The electric leaf vac takes in and shreds soft material of large size like leaves and grass down to 1/10 of its original size with the built-in shredder.

Due to the additionally plug-on rake leaves can be gathered still more simply. Therefore it stands out clearly against the competition.

With the blowing function leaves sprayed out on wide grounds can be blown quickly on to one pile. The carrying belt and the additional handle allow a fatigue-less work.

The large dimensions of the suction tube and the collection bag rounding the positive overall impression.

Change-over switch: suction/blow

Electronic speed control
