BG-PB 33 Petrol Shoulder Blower

Art.-No. 34.360.40

The petrol shoulder blower is a wind device for the cleaning of bigger surfaces like, for example, parking bays or court entrances. The strong aerial ray rounds up foliage and mowed grass as fast like paper cup or drinks cans under tables and benches. With the engine on the back the hands are freely for the guidance of the blowgun. Two different nozzles permit the variation of the exhaust velocity according to requirement. In the handle all operating elements are integrated comfortably, by the possibility of the locking of the throttle control strength application is hardly also necessary here.

Features

- Carrying belt (1)
- All operating elements are integrated in the handle (2)
- On/ Off switch
- Lockable throttle lever
- Full crank shaft

Technical Data

- 2-stroke-engine: **0.9 kW / 1.22 HP**
- Gasoline and oil mix: 40:1
- Air velocity max.: approx. 250 km/h
- No load speed: 8,500 rpm
- Tank volume: 0.65 l
- Capacity: 33 ccm
- Product weight: 5.8 kg

Logisitic Data

- Net weight: 6.5 kg
- Gross weight: 7.8 kg
- Packing dimensions: 420 x 350 x 420 mm
- Bar code: 4006825 561524
- Sales unit: 1 pc

Passes the pollutants directive 2002/88 EC (emission 2)
