

Functional flexibility for comfortable grass trimming!

For cutting grass, also in difficult areas, like along fences and walls, between and under bushes – everywhere the lawn mower cannot be used any longer or where the grass is already too high. With its strong motor of 500 watts the lawn trimmer is a practical helper to keep the garden tidy. The rotating nylon thread cuts the grass as neat as the knife of the lawn mower. **The turnable and inclinable engine head makes a comfortable working on vertical surfaces possible.** By the extendable, ergonomically formed arm rest, the step less telescopic guidance cross-beam and the adjustable auxiliary handle, is fatigue-free working ensured. The RT 527 has a fully automatic thread adjusting, which guarantees an optimal cut result. Its noble design of impact resistant, high quality plastics is rounding the positive overall impression.
