The Einhell Power Generator TC-PG 5000 supplies electrical energy wherever no mains connection is available, thanks to its air-cooled 4-stroke engine. The generator delivers a continuous output of up to 4,500 watts and a maximum output of 5,000 watts. Power is provided via one 230 V / 32 A CEE socket for high-demand devices and two standard 230 V sockets. The AVR technology ensures a constant output voltage. Electric start including starter battery allows easy start-up. The 25-litre petrol tank enables longer running times. An overload cut-out, low-oil safety shutdown, solid rubber wheels and a foldable handle support safe, mobile use.
