

Precise and flexible!

Einhell®

NEW GENERATION

Precise, complicated work on wood, plastic, aluminium, plexi glass or gypsum are challenges for model construction and handicrafts. With the stable parallel arm it is easy to saw accurately straightforward.

The flexibility of the NDK 120 L points itself when working to the millimetre range, sawing perfect round forms and circles out.

A blower device removes the dust particles directly from the working piece. The transparent saw blade protection offers optimal security without disturbing the work. For mitre cuts you can adjust the workbench up to 45 degrees.

The scroll saw is equipped moreover with a laser, for precise and straight cuts.
