The Einhell spare brush set is an accessory for the Einhell cordless and electric grout cleaners. The set includes one steel wire brush and one nylon brush. The robust steel brush is ideally suited for cleaning joints with a minimum width of approx. 10 mm. The nylon brush is cleaning joints with a width starting from approx. 6 mm already and is therefore especially recommended for narrow gaps. This way you can easily eliminate weed, stubborn dirt, deposits, lichen and moss precise from tiles and paving stones, for a courtyard entrance and terrace free of any weeds. Other brushes for wider joints are available for the Einhell grout cleaners separately.
