800W CONSTANT PRESSURE JET PUMP

GE-AW 8036 E

This Einhell constant pressure jet pump allows hassle-free operation due to its ability to start-up automatically when water is required and shut down when it is not.

Ideal for numerous applications the pump provides domestic clean water supply to laundry, toilet, and outdoor taps, when combined with a trigger nozzle and hose for garden watering and washing your car.

The pump provides sufficient pressure for large single story buildings or two story town houses. With its quiet induction motor it provides strong even pressure, whether it is one outlet or up to five outlets at once this system delivers efficient operation, consistent flow rate and helps conserve energy by only turning on the pump as water flow is required. Perfect for use where the water source is located below ground or when connected to water tanks for hoses, sprinklers, etc.

FEATURES & BENEFITS

Automatic Function – The pump switches on automatically when water is required and then off again. The integrated dry-running safety will protect the pump against damage if the water supply is interrupted.

Stainless Steel Housing, Shaft & Impeller– Make this pump corrosion resistant and tough.

Brass Knuckle – Provides strength and long lasting durability.

Induction Motor – Is maintenance free, provides quiet operation and improved reliability and longer life.

SPECIFICATIONS

Input – 220-240V ~ 50Hz

Motor – 800W

Max. Flow Rate – 3,600l/h

Max. Head – 36m

Max. Lift – 8m

Inlet & Outlet – 25mm (1")

Water Temp. – 1°C - 40°C

IP Rating – IPX4

CONTENTS

1 x Jet Pump

1 x Teflon Tape

1 x Instruction Manual

LOGISTICS

Product Weight – 10kg

Single Box Dimensions (LxWxH) - 365 x 275 x 430mm

Outer Carton Qty – 1 units

Pallet Quantity - ## units
