12:1 DISTANCE TO SPOT RATIO INFRARED THERMOMETER

IFT-100

Ozito's Infrared Thermometer allows you to quickly obtain temperature readings in both °C and °F from a distance.

The wide temperature range makes it ideal for different applications such as finding overheated electrical and automotive components, diagnosing faulty sensors or even measuring cooking temperatures on your BBQ.

Turn on the laser pointer and the display backlight to take measurements with ease, while the data hold function stores captured temperatures momentarily. With auto shut off, the unit automatically powers down after 10 seconds of inactivity, whilst the low battery indicator shows when the battery needs replacing.

FEATURES & BENEFITS

-20 to 320°C Temperature Range (-4 to 608°F) – *Quick contactless readings, ideal for cooking, refrigeration, automotive & electrical applications*

Laser Pointer & Backlight – *For assisted aim & readability*

Data Hold & Auto Shut Off – *Hold readings for 10 seconds & conserves battery when inactive*

°C or °F Measurements

9V Battery Included

SPECIFICATIONS

Power – 9V DC

Measurable Range – -20 to 320°C (-4 to 608°F)

Accuracy – ±2°C or ±2% (0 to 320°C)
            ±3°C (-20 to 0°C)

Storage Range - -5 to 60°C (23 to 140°F)

Distance to Spot Ratio – 12:1

Response Time - ≤500ms

CONTENTS

1 x Infrared Thermometer

1 x 9V Battery

1 x Instruction Manual

LOGISTICS

Product Weight – 0.17kg

Single Box Dimensions (LxWxH) - 160 x 60 x 240mm

Outer Carton Qty – 6 units

Pallet Quantity - ## units

3 YEAR REPLACEMENT WARRANTY
