

**Extremely wide cuts
without a hitch!**

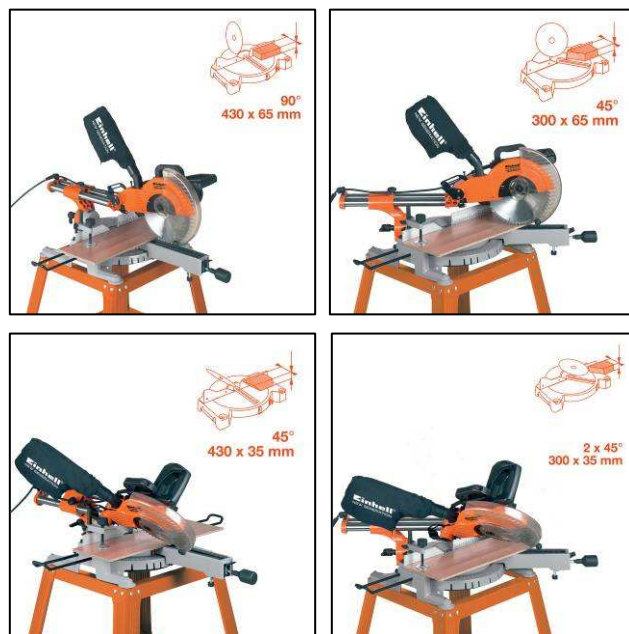

Einhell®

NEW GENERATION

The KGSZZ 4300 UG sliding cross-cut and mitre table saw for easy, precise and smooth cutting of wood parts.

The saw even allows double mitre cuts thanks to its tilting and swivelling motor head. The serially supplied base frame allows working at optimum working heights. Despite its 210mm saw blade the saw can make cuts up to 430mm wide and is therefore ideal for cutting wide panels and laminate floorboard in one go.
