

QUICK START GUIDE

Easy steps to getting started.

1. Read the User Guide for all SAFETY aspects of using your GARDENLINE® Garden Pump.
2. Carefully remove the GARDEN PUMP from the packaging, take care that you have all parts supplied in the packaging before discarding.
3. Connect a suction pipe (not included) to the intake connection (2) of the pump. Refer to Section 7 of the User guide for detailed instruction.
4. Connect the pressure line to the pressure line connection (4) of the pump. Refer to Section 8 of the User guide for detailed instruction.
5. Set up the pump on a flat and firm surface.
6. Unscrew the water filler screw (3) and remove the coarse filter together with the non-return valve and fill the pump housing with water. Assemble in reverse order. Plug into the mains. Ensure All shut-off devices in the pressure line (spray nozzles, valves etc.) are fully opened when priming. Priming can take anywhere between 30 seconds and 5 minutes. If it takes longer than this, the pump should be refilled with water. Refer to Section 9 of the User Guide for more detailed instructions.
7. Select one of four operating modes: Power ON/ Ever ON/ Automatic/ Time. Refer to Section 9.1 of the User Guide for detailed instructions.
- 8. IF IN DOUBT PLEASE REFER TO THE USER GUIDE PROVIDED**
