The Einhell TE-AC 270/24/10 compressor is an efficient and robust endurance runner for high requirements. The high-quality components and oil lubrication contribute to a very long life. The oil level can be conveniently checked through an inspection window. The working pressure of up to 10 bar can be set to many applications using the pressure regulator. Sufficient reserves of compressed air for many applications are held ready by the 24 liter tank. The regulated working pressure of the TE-AC 270/24/10 can be conveniently read off on the large pressure gauge and it is culled at the quick-release coupling. A pressure gauge and a further quick-release coupling are also available for working with unregulated tank pressure.
