

# NPRP 4600 Rain Barrel Pump

Art.-No. 41.704.36

The practical submersible pump for using rainwater. With an infinitely height-adjustable floating switch so that the switching on/off height and the switching differential can be infinitely adjusted. In addition, the floating switch can be fastened for use in continuous mode. The integrated floating switch and the storage compartment for the extension hose fastened to the pump make this rainwater barrel pump the highlight of the garden season.

## Features

- Carrying handle with integrated cable reel (1)
- Continuously adjustable float switch (2)
- High-quality pump housing made of impact-resistant plastics (3)
- Pressure tubes 25, 27 and 30 cm
- Flexible suction tube with stopcock
- Storage compartment for storing the tubes

## Technical Data

- |  |                          |
|--|--------------------------|
| ■ Mains:                               | 230 V ~ 50 Hz            |
| ■ Power:                               | 300 watt                 |
| ■ Flow rate max.:                      | 4,600 l/h                |
| ■ Flow rate max. with extension tubes: | 1,750 l/h                |
| ■ Flow height max.:                    | 11 m                     |
| ■ Submersion depth max.:               | 7 m                      |
| ■ Water temperature max.:              | up to 35 °C              |
| ■ Hose connection:                     | approx. 26,4 mm (G ¾) AG |
| ■ Mains cable length:                  | 15 m                     |
| ■ Product weight:                      | 5.8 kg                   |

## Logistic Data

- |                       |                    |
|-----------------------|--------------------|
| ■ Net weight:         | 5.4 kg             |
| ■ Gross weight:       | 5.3 kg             |
| ■ Packing dimensions: | 180 x 220 x 340 mm |
| ■ Bar code:           | 4006825 588682     |
| ■ Sales unit:         | 1 pc               |
