HEATING

IHS 2000/1

Infrared Radiant

Item No.: 2338531

Ident No.: 11014

Bar Code: 4006825606492

The infrared radiant heater IHS 2000/1 is a practical stand-alone heater for hobby, cellar and housekeeping rooms, as well as for covered patios and conservatories. The high-quality and effective quartz heating rods quickly heat up to the desired heat by means of the three heating stages (650/1300/2000 W) without unpleasant side effects such as fan noises or air turbulences. In order to guide the heat specifically to each desired location, the stand pipe of the infrared radiant heater can be adjusted in height. Thanks to the integrated tilting guard, the safe operation is ensured at any time, as the equipment switches off automatically as soon as it tilts.

Features

- Effective quartz heating rods
- 3 performance levels (650 / 1300 / 2000 W)
- Display of the adjusted switching step
- Pull switch
- Protection against tipping (switches the tipping device off)
- Height-adjustable standpipe
- Rubber mains cable

Technical Data

- Heating output power 2000 W
- IP class IP24
- Mains supply 220-240 V | 50 Hz

Logistic Data

- Product weight 10.26 kg
- Gross weight single packaging 12.5 kg
- Pieces per export carton 1 Pieces
- Gross weight export carton 12.5 kg
- Dimensions single packaging 510 x 420 x 265 mm
- Dimensions Export Carton 510 x 420 x 260 mm
- Container quantity (20"/40"/40"HC) 508 | 1050 | 1180
