This compact 196cc Petrol Inverter Generator can produce up to 2500 Watts of power, suitable for powering a wide range of appliances such as a camping fridge, charging a mobile phone or powering remote lights.

The wheels and transport handles allow for easy maneuverability for use in remote locations, perfect for when your camping, caravanning, working in the backyard or require back-up power.

With an integrated residual current device and an automatic low oil cut-out, this generator is designed with safety in mind. The inverter technology is ideal for equipment that requires stable frequency and voltage.

#### FEATURES & BENEFITS

**Inverter Technology** – Generates power with a pure sinewave, perfect for equipment that requires stable frequency and voltage

**Multiple Power Outlets** – Dual 240V AC and one 12V DC output to suit a range of appliances and devices

**4 Stroke OVH 196cc Engine** – Powerful petrol motor with automatic low oil cut-out to prevent engine damage

**Low Oil Cut-Out** – Automatic cut-out to prevent damage to the engine

**Designed for Easy Transport** – Perfect for use in remote locations, whilst camping, caravan-ing, or just working in the backyard away from power plugs.
