Power Generator

This "power station" supplies energy and provides security. Power will be available whenever it is needed. Power failures or insufficient current supply are no longer a problem; whether during camping, at building sites, in homes or cottages, on boats or in the garden. This equipment can be used nearly everywhere, and, with its continuous power supply of 650 watts, provides sufficient power for many applications. The large four-litre tank ensures continuous operation for six hours at 2/3 load. The power generator is powered by a high-quality 2-stroke engine and is equipped with an overload switch.

Features

- Powerful 2-stroke drive engine
- Large 4.2-litre tank for continuous operation
- Carrying handle for easy transport
