BG-SP 400 RB Rain barrel pump

Art.-No. 41.703.03

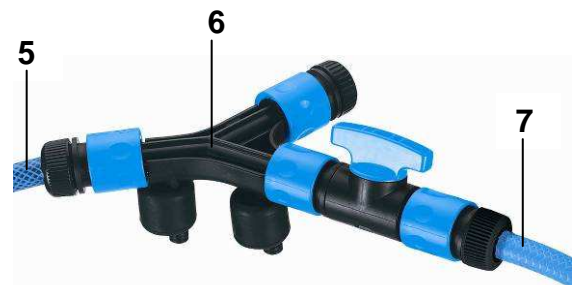

The rain barrel pump is particularly suitable for the consumption of water from the rain barrel. Due to the bent pressure pipe the pump can be hung up into the rain collecting tank. A hose for the irrigation with a garden shower can be attached by the plug-in connection at the stop valve. By connection of the removal hose other water tanks, e.g. watering cans, can be filled easily. By using of an appropriate pressure hose the pump can also be used as a submersible pump for evacuating containers, tanks etc.

Features

- Pressure connection G $\frac{3}{4}$ (ca. 26.4 mm) male thread (1)
- Handle (2)
- Mains cable 10 m
- Suction cage with integrated filter (3)
- Float switch (4)
- Pressure hose (approx. 1 m) (5)
- Distributor with stop valve (6)
- Removal hose (7)

Technical Data

- Mains: 230 V ~ 50 Hz
- Power: 400 W
- Delivery capacity max.: 4,200 l/h
- Delivery height max.: 11 m
- Immersion depth: 5 m
- Water temperature: up to 35 °C
- Foreign particle size up to: Ø 3 mm
- Mains cable: 10 m H05RN-F
- ON function: approx. 50 cm
- OFF function: approx. 5 cm
- Hose connection: G $\frac{3}{4}$ (ca. 26.4 mm) male thread
- Net weight: 4.4 kg
- Gross weight: 4.8 kg
- Packing dimensions: 220 x 160 x 330 mm
- Bar code: 4006825 549362
