## Orbital Sander

A large abrasive capacity is warranted by the powerful motor and the big orbital circle diameter - enough power to sand level surfaces with ease.

State-of-the-art speed electronics allows the unit to be adjusted for ideally processing a wide range of materials. Sanding paper can be attached to the orbital sander with or without use of the quick-fit fastening system.

The integrated dust extraction system makes working with the sander a pleasant and clean experience. The ergonomically shaped soft grip provides for extra comfort and safety.
