

SUBMERSIBLE WATER PUMP

PSCW-400RB

EH-Art. No: 30.002.26

Ident No: 11017

Barcode: 9319510022381

Bunnings Item No: 0035848

The PSCW-400RB Submersible Clean Water Pump provides a 4,200 litre per hour flow rate with an 11 metre head thanks to its powerful 400W motor.

The pump can be fully submerged up to 5 metres for efficient water removal.

Also includes a 900mm outlet pipe extension for easy water extraction from rainwater tanks with an included tap connector so you can easily use rain water around the garden.

FEATURES & BENEFITS

Powerful 400W Motor – Enables the pump to create maximum lift and head height

11 Metre Head – Allows the pump to carry the water to wherever you need

5 Metre Immersion Depth – The pump can be submerged for efficient water removal
