

Air cooler LK 75

Art.-No.: 23.601.35

Bar code: 4006825536690

Sales unit: 1 pc

Unlike conventional air conditioners no-complex and cost-intensive installations are necessary with the LK 75. The incoming air will be cooled by a iced water or cold water filling which runs over a filter pad, and will be blown out forwards. Thus the room temperature will be reduced.

By the ionisation of the air, a climate can be formed like the climate at the sea or in the mountains. The concentration of micro organisms in the air is reduced, the oxygenation in the blood and the strength against disease germs and allergies are promoted.

All functions are directly adjustable at the unit or by the provided IR-remote control.

Features:

- On / Off switch (1)
- „Speed“ – Fan speed: 3-settings (2)
- „Time“ – Power-off time delay 1 - 7 h (3)
- „Mode“ – Sleep or nature mode (natural wind will be copied) (4)
- „Swing“ – automatically vertical adjustment of the air discharge opening lamellas (5)
- „Cool“ – humidification of the filter pad (6)
- „Negative Ion“ – ionisation (7)
- Recessed grip (8)
- Manual adjustment of the horizontally air discharge opening lamellas
- LED – Announcement of all adjusted functions (9)
- 2 cooling batteries
- Large water filling throttle
- Integrated water tank with water level scale (10)
- 4 castors (11)
- IR-remote control (12)

Technical data:

- Mains: 230 V ~ 50 Hz
- Power: 75 watts
- Water container capacity: 10 litres
- Negative ionic: $\geq 2 \times 10^6 \text{ n/cm}^3$
- Unit weight approx.: 7.7 kg
- Packing dimensions approx.: 390 x 360 x 830 mm
- Unit dimensions approx.: 375 x 335 x 800 mm
- Total weight approx.: 9 kg
