DHG 200 Diesel-Hot Air Generator

Art.-No. 23.364.00

The Diesel-Hot Air Generator is simple to install. Simply only refuel with fuel oil EL or Diesel, build a 230V power connection, switch on and it can be heated with pleasant warmth. The unit is suitable for heating well ventilated areas, drying of new buildings, point heating of workplace and the like. Permanent air leak of a size from 0,4 m² are compellingly necessary for it.

Features

- ON / OFF switch (1)
- Fuel indicator (2)
- Integrated fuel tank (3)
- Fault indication (4)
- Integrated, adjustable thermostat (5)
- Flame monitoring by photo cell
- Overheat control
- Manometer for pump pressure
- Electric ignition
- Housing with frame joint for easy service repairation

Technical Data

- | | |
|--|------------------------|
| ■ Ventilator: | 230 V~ 50 Hz |
| ■ Air volume flow: | 400 m ³ / h |
| ■ Nominal heat capacity: | 20 kW |
| ■ Temperature of blowing out air max.: | 393°C |
| ■ Tank volume: | 19 l |
| ■ Consumption per hour: | 2.0 l |
| ■ Running time with one fill max.: | 9 h |
| ■ Room size max.: | 160 m ² |
| ■ Product weight: | 12.7 kg |

Logistic Data

- | | |
|-----------------------|--------------------|
| ■ Net weight: | 12.7 kg |
| ■ Gross weight: | 15.0 kg |
| ■ Packing dimensions: | 810 x 360 x 430 mm |
| ■ Bar code: | 4006825 558845 |
| ■ Sales Unit: | 1 pc |
